

Flat-out Better!

INFINITREE'S PROPRIETARY FORMULATION OUTPERFORMS untreated polystyrene to minimize warping!

With InfiniTree, you also have the added benefit of having industry-leading expertise in manufacturing and fabrication at your disposal. Our engineers are on-hand to make recommendations for bringing your designs to life — a long life that's not limited by excessive warping.

Local supplier

- excessive warping
- poor engineering

InfiniTree

- Nice, straight boards
- Proper engineering further enhances longevity
- Significantly outperforms local suppliers

We invite you to test our product and see for yourself.
